As Indonesia grapples with the pandemic, the government has been actively introducing variety of supports, regulation and policy to buffer against COVID-19 impact. With focus on six different sector, Indonesian government announced that there will be allocation of IDR 366.5 trillion (US\$24 billion) towards accelerating the National Economic Recovery program in the 2021 state budget following the various economic stimulus that have been launched in 2020 in response to the COVID-19 pandemic.³

Even though the outbreak disrupts business activity during the year of 2020 and predicted to continue disrupting the business until Q2-Q3 2021, Indonesian economy in the third quarter of 2020 grew better by 5.1% (q-to-q) compared to the second quarter of 2020 which experienced a growth contraction of 4.2%.⁴

Executive Overview

The outbreak is resulting in the unfavorable condition of Indonesian talent market. According to Statistics Indonesia (BPS), the outbreak brings the highest unemployment rate since 2011.⁶

Despite the gloomy outlook, this increment in availability of manpower in Indonesia due to the outbreak has been responded by Indonesian government in optimistic manner with program such as Reskilling Program.

At a national scale, with the renewed workforce and recovering economy, Indonesia is planning to maintain the recovery pace to meet the rebound momentum in the Q2 2021 when the vaccines being available.

Besides the pandemic, Indonesia's government focus will also be on expanding manufacturing and investment footprint via the recently passed Manpower Bill and finalization of the Regional Comprehensive Economic Partnership (RCEP) multilateral agreement, and also the development of Indonesia Industry 4.0.⁷
